

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

#### 50 CFR Part 648

[Docket No. 210716-0148]

RTID 0648-XB188

#### Fisheries of the Northeastern United States; Atlantic Mackerel, Squid, and Butterfish Fishery; 2021 *Illex* Squid Quota Harvested

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Temporary rule; reduction of possession limit.

**SUMMARY:** Federal *Illex* squid vessel permit holders are prohibited from fishing for, catching, possessing, transferring or landing more than 10,000 lb (4,535 kg) of *Illex* squid per trip, and from landing *Illex* squid more than once per calendar day. This prohibition is required when NMFS projects that 94 percent of the 2021 annual catch limit has been caught. This action is intended to prevent over-harvest of *Illex* squid for the fishing year.

**DATES:** Effective 0001 hr local time, August 30, 2021, through December 31, 2021.

**FOR FURTHER INFORMATION CONTACT:** Alyson Pitts, Fishery Management Specialist, (978) 281-9352.

**SUPPLEMENTARY INFORMATION:** Regulations for the *Illex* squid fishery are at 50 CFR part 648. The regulations at § 648.24(a)(2) require that NMFS must prohibit Federal *Illex* squid vessel permit holders from directed fishing when the Regional Administrator projects that 94 percent of the domestic annual harvest (DAH) quota is caught. Vessels may not catch, possess, transfer, or land more than 10,000 lb (4,535 kg) of *Illex* squid per trip, or land *Illex* squid more than once per calendar day. The Regional Administrator monitors the *Illex* squid fishery catch based on dealer reports, state data,

and other available information. When 94 percent of the DAH has been reached, NMFS must provide at least 72 hours of notice to the public that it made this determination. NMFS must also publish the date that the catch is projected to reach 94 percent of the quota and the date when prohibitions on catch and landings for the remainder of the fishing year become effective.

The Regional Administrator has determined, based on dealer reports and other available information, that the *Illex* squid fleet will catch 94 percent of the total *Illex* squid DAH quota for the 2021 season through December 31, 2021, by August 30, 2021. Therefore, effective 0001 August 30, 2021, federally permitted vessels may not fish for, catch, possess, transfer, or land more than 10,000 lb (4,535 kg) of *Illex* squid, and may not land *Illex* squid more than once per calendar day. Vessels that have entered port before 0001 hr on August 30, 2021, may offload and sell more than 10,000 lb (4,535 kg) of *Illex* squid from that trip. Also, federally permitted dealers may not receive *Illex* squid from federally permitted *Illex* squid vessels that harvest more than 10,000 lb (4,535 kg) of *Illex* squid through 2400 hr, December 31, 2021, unless it is from a trip landed by a vessel that entered port before 0001 hr on August 30, 2021.

### **Classification**

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR part 648, which was issued pursuant to section 304(b), and is exempt from review under Executive Order 12866.

NMFS finds good cause pursuant to 5 U.S.C. 553(b)(B) and 5 U.S.C. 553(d)(3) to waive prior notice and the opportunity for public comment and the delayed effectiveness because it would be contrary to the public interest and impracticable. Data and other information indicating the *Illex* squid fleet will have landed at least 94 percent of the 2021 DAH quota have only recently become available. Landings data are updated on a weekly basis, and NMFS monitors catch data on a daily basis as catch increases toward

the limit. Further, high-volume catch and landings in this fishery increases total catch relative to the quota quickly. The regulations at § 648.24(a)(2) require such action to ensure that *Illex* squid vessels do not exceed the 2021 DAH quota. If implementation of this action is delayed, the quota for the 2021 fishing year may be exceeded, thereby undermining the conservation objectives of the Atlantic Mackerel, Squid, and Butterfish Fishery Management Plan. Also, the public had prior notice and full opportunity to comment on this process when the provisions regarding closures and the 2021 quota levels were put in place.

**Authority:** 16 U.S.C. 1801 *et seq.*

Dated: August 25, 2021.
